

Keeping your ShowerGuard glass clean is easy. A soft cloth or wet sponge and most common household cleaners are all you need to keep it looking beautiful. As with all glass, avoid harsh abrasive brushes or cleaners that could scratch the surface.

ShowerGuard glass is covered by a 10-year limited warranty.

For simple care instructions, a list of approved cleaners and warranty information, visit [ShowerGuardGlass.com](http://ShowerGuardGlass.com).

ShowerGuard® glass.  
Squeaky clean just got easier.

No matter how hard you try to keep standard shower glass clean, eventually it gets ugly.

ShowerGuard® glass is incredibly easy to clean and keep beautiful.

You can scrub your fingers to the bone cleaning standard shower glass, yet it will never be as clean as the day it was installed. That's because hard water, heat, humidity, soap and even cleaning agents can spot, discolor and corrode the surface of the glass. In other words, the things you use to clean your glass can actually make it look worse.

But ShowerGuard glass is a different kind of glass altogether. Its surface is protected during manufacturing through an ion beam process. This patented technology permanently seals the glass surface, stopping corrosion before it starts. And unlike spray-on or wipe-on treatments that eventually come off, the coating on ShowerGuard glass is permanent. Which means with just a minimal amount of cleaning, ShowerGuard glass will always look as gorgeous as it did the day you bought it.

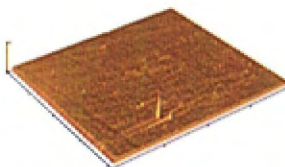

Standard glass corrodes, leaving it full of tiny pits and ridges that attract and hold scum.

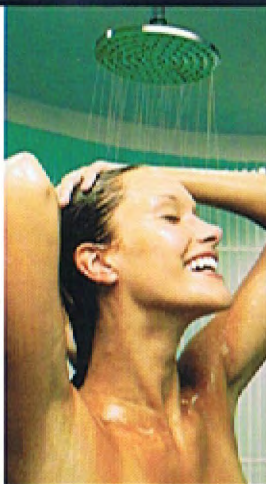

Magnified standard shower glass after exposure to typical shower conditions.

ShowerGuard glass resists corrosion, so scum has nothing to hold on to.

Magnified ShowerGuard glass after exposure to typical shower conditions.

 **SHOWERGUARD®**  
FOREVER BEAUTIFUL
